Technical Publications Documents

From time to time, Piper Aircraft issues Service Letters, Service Bulletins, or Change Notices in order to address potential issues on aircraft. These notices are provided here, searchable by airplane model. Piper Aircraft, Inc. has chosen Aircraft Technical Publishers (ATP) to be the exclusive provider and distributor of electronic publications.

Cheyenne II | Business Jet Traveler

The Cheyenne II (but not the IIXL) was fitted with something called a “stability augmentation system” (SAS) because of concerns about the aircraft longitudinal stability when it was loaded too heavily toward the aft limit for the center of gravity. If you balance the load per the flight manual, the SAS never comes into play.

Piper’s Impressive Cheyenne III

When Piper Aircraft announced its plans to build a big-cabin turboprop in late 1977, time was of the essence – only, we didn’t know it. It took another three years to get the airplane certificated, during which time the robust state of the general aviation manufacturing economy had begun to unravel. The Cheyenne III’s main [Read More](#)
